EXPLAINS PROGRAM OF F. H. A.

Today, the average investment per worker in agriculture of about $14,000 is more than in any manufacturing industry. The estimated value of agricultural assets in the United States increased from fifty-four to one hundred sixty-two billion dollars, an increase of 200 per cent from 1940 to 1955.

Credit is a tool, or device, that assists farmers in achieving certain objectives, particularly in maximizing the returns from their farming operations. Under unfavorable circumstances, it may also maximize their losses. Debt management is influenced not only by the decisions of the borrowing farmer, but in most cases by the attitude and the policies of the lender.

The Farmers Home Administration makes loans to assist farm families in becoming owners of efficient family-type farms. Farm ownership loans are made from funds advanced by private lenders and insured by Farmers Home Administration. These loans are also made from limited annual appropriations by Congress. FO loans are made for farm purchase, farm development, farm enlargement and building improvement. The farm on which the loan is made must be large enough when purchased, enlarged or developed, to enable the farmer to earn a good living, pay operating expenses, taxes, insurance and meet his obligations while paying for the farm. It must be a family-type farm, which means, a farm on which the family can normally operate without outside help, except perahps in periods, such as planting and harvesting seasons.

The total amount of money borrowed may not be more than the fair and reasonable value of the farm, as decided by the local County Committee. The value of the farm is based on the long-term earning capacity of the farm, which is determined by an FHA appraiser except when a building improvement loan is involved. It this case, it is based on the normal agricultural value of the farm.

Tenant Purchase, Farm Enlargement and Farm Development loans are made for 40 year periods. The Building Improvement loans are made for 5, 10, 15, 20 or 40 years. However, the borrower can have, and is required to finance the loan when private credit is available at the rate and terms prevailing in the community.

Homemakers Items

Gay is the word for today's petticoats.

Miss I. Byrd Johnson, clothing specialist at VPI, says in addition to the familiar black and white, eight colors are on the market for petticoats: orchid, grey, green, red, navy, maize, pink and blue. Made of materials that keep crisp and fresh, they travel well without crushing.

Prints will be available soon for use under sheers for warmer spring and summer wear.

You'll pay slightly more for the colors and prints than for the black and white.

Kitchen Aids

Raisins for cakes and breads will be plump and juicy if soaked in warm water before being added to the batter or dough.

Give a new flavor to dried prunes by adding a few whole cloves while cooking, or cook them in orange or grape juice.

Cold, hard butter is easy to measure if you fill a measuring cup with water to the desired level,then add pieces of butter until the water level is twice that height.

An unused half of lemon can be covered with a small, plastic bowl cover or foil paper to keep it from drying out. Don't wait too long before using it. It molds quickly.

Clean Piano Keys

Water and not enough sunlight will turn ivory piano keys yellow. To clean these yellowed keys, use a soft flannel dampened with wood or denatured alcohol. Then be sure your piano keyboard is uncovered part of the time. On some new pianos, plastic keys are being used. These may be cleaned with a damp cloth.

GROW PULPWOOD WEEK OBSERVED IN VIRGINIA

Charlottesville, Va.- Governor Thomas B. Stanley issued a statement endorsing the week of April 18-23 as "Grow Pulpwood Week" in Virginia. The Commonwealth is one of the leading pulpwood producers of the nation. "This record cannot be maintained unless we learn to manage our forest lands wisely," said State Forester George W. Dean.

"The people of Virginia coopeerated 100% with the tree planting program this past winter," remarked Dean. "Over 14 million seedlings were distributed from the Virginia Forest Service nurseries for painting during the 1954-55 planting season. In the not too distant future some of these seedlings will be large enough to be cut for pulpwood, while others will be left for sawtimber. Governor Stanley's statement endorsing 'Grow Pulpwood Week' is of importance to everyone—be he butcher, baker, merchant, farmer or professional man," reminded the State Forester.

Of the total quantity of potatoes used for human consumption in this country, about 15 per cent are now sold as a prepared or partially prepared food product—as compared to 2 per cent in 1940. About 2/3 of these commercially - processed potatoes reach the consumer in the form of potato chips.

Pork Output to Increase

In January and February, hog slaughter ran 15 to 20 per cent above a year ago. Slaughter will stay larger than last year with a margin. The output may be about larger than last year.

BURLEY TOBACCO GROWERS VOTE THURSDAY

Burely tobacco growers are reminded that Thursady, April 28, is their voting day. On that day, burley growers will decide in a referendum whether they want marketing quotas and price supports on their 1956 crop. All persons who were engaged in the production of the 1954 crop of burley tobacco are eligible to vote in the referendum.

C. S. Rush, chairman of the County Agricultural Stabilization and Conservation Committee, explains that at least two-thirds of the growers voting must approve the quotas if they are to be effective for the 1955 crop of burley tobacco. If the quotas are approved, price support on burley tobacco will continue at 90 per cent of parity. If more than one-third of the growers voting disapprove the quotas, no price support will be available on the 1955 burley crop.

The chairman announces that the voting place for Appomattox County will be the ASC office at Appomattox. The polls will be open from 8:00 A. M. to 6:00 P. M. on the day of the referendum.

Mr. Rush states that the present record supply of burley tobacco, resulting from large yields and production which exceeded requirements during the past 4 years, has presented a serious surplus problem. This made it imperative that new legislation be enacted to meet the situation.

This new legislation — Public Law 21, 84th Congress, approved March 31—provides for a reduction in marketing quotas and acreage allotments for the 1955 crop of burley tobacco, and this necessitates a growers' vote on the revised quotas. Among other provisions, the legislation also increases the marketing quota penalty on excess tobacco from 50 to 75 per cent of the average market price for such tobacco for the preceding marketing year.

By this time, Mr. Rush said, all growers in the county should have received the revised 1955 burley allotment for their farms. Any grower who has not received his revised allotment, or any grower who has a question about the burley referendum on Thursday, should immediately get in touch with the ASC office.

STATE CHANGES FIRING RULE ON TEACHERS

Richmond, April 16.- The school boards will be permitted to discharge teachers on 30-days notice under a change in teacher contracts adopted by the State Department of Education for the 1955-56 school year.

J. G. Blount, Jr., finance director for the department, said under the old contracts teacher's salaries would have to be paid for a full school year even if there were no pupils to teach.

The new contracts will also provide for the designation of the school in which a teacher will work, rather than merely designating the county or city in which the teacher is employed.

Another change will require teachers to swear allegiance to "the Constitution of Virginia and the Constitution of the United States." Previous contracts have required that teachers swear allegiance only to "the Government of the United States."

Carver-Price School News

Hello Readers! Wednesday afternoon the Buckingham County High School baseball team played our baseball team in a good game. As news goes in before game time, we will not be able to report the score; however, having won our first game against Amherst High, we expect another win.

Curtis Whitted, senior, won a $100.00 scholarship to Virginia State College last Friday in the Negro Organization Society Oratorical Contest held at St. Paul Polytechnic Intsitute. Twelve Virginia city and county high schools participated in the competition. "Choosing a Job" was the subject chosen. We are proud of Curtis' winning such recognition.

On Monday night, April 25, the Teachers' Talent Show wil lbe held in the Auditorium, at 8:00 o'clock. There will be piano solos, a quartet, dancing, poems and songs. Admission will be 25c and 35c. Come out for an entertaining evening.

Tuesday, April 19, Principal H. E. Patrick attended a Principal's Conference in Richmond, Virginia.

Tuesday morning, Mr. A. T. Cecil, Dean of Virginia Seminary, and Mr. Peace, Coach and P. E. Instructor, spoke to the Senior Class about the offerings of the college and enrolling there for next year. Photographs, brochures, and blanks were distributed to the members of the class.

Seems like commencement time is really near. Seniors are getting their invitations. Looks like all is about over but the shouting.

Seniors are busy rehearsing their play for its presentation. This should be one of their best! We'll post you as to the date next week.

Until next week, our thought: "Nothing is more noble, nothing more venerable than fidelity. Faithfulness and truth are the most sacred excellences and endowments of the human mind."
